

ESF Research Networking Programme

Functional Dynamics in complex Chemical and Biological systems (FUNCDYN)

Basic Experimental Techniques in Biological Dynamics

ITQB, Oeiras, Portugal, 5-9 September 2011

<http://www.itqb.unl.pt/expworkshop> • <http://www.esf.org/funcdyn> • <http://funcdyn.org>

This ESF-ITQB Experimental Workshop is intended for young scientists with a background in chemistry, biology, physics or mathematics, without prior knowledge of basic experimental techniques in biology. In this workshop, we provide first hands-on experiences on a selection of four basic experimental methods used in the study of biological systems. The workshop will take place in the lab.

Scientific Committee

Teresa Costa (Instituto de Tecnologia Química e Biológica, Oeiras, Portugal)

Rui Dilão (Instituto Superior Técnico, Lisbon, Portugal)

Marcus Hauser (Magdeburg University, Germany)

Adriano Henriques (Instituto de Tecnologia Química e Biológica, Oeiras, Portugal)

Sofia Oliveira (Instituto de Medicina Molecular, Lisbon, Portugal)

Luís Paulo Rebelo (Instituto de Tecnologia Química e Biológica, Oeiras, Portugal)

Mónica Serrano (Instituto de Tecnologia Química e Biológica, Oeiras, Portugal)
